More Than You Can Imagine !

BY REV. RAZMIG MINASSIAN

How BIG is our God? Famous author and preacher John Piper illustrates the “BIGNESS” of God this way. Do you view God through a telescope or through a microscope. One tool magnifies things that are micro and small and the other allows the human eye to see what’s grand and big. In fact the telescope brings what is lightyears away right before our eyes.

Your view of God in your everyday says a lot about your daily walk with Him. Is your view of God micro or is he BIG? Just imagine: We can expect BIG things from a BIG God, and we have a BIG God that wants a personal relationship with us, he loves us, has redeemed us from our sin and has adopted us as His children. Paul in Ephesians 3:18-19 writes about how much God loves us. It is truly unimaginable. Don’t miss this: Paul says God’s love for us is “wide, long, high and deep.” That’s a BIG GOD loving us a BIG WAY!

PARENT PERSPECTIVE

THE IMPACT OF CAMP CHANGES LIVES. FOREVER!

I'm so grateful for our Camp AREV Family! I notice a difference in my kids when they come back home from camp. They've developed great memories, new friendships, and a deeper understanding of who Jesus is and what he wants us to do in life. Thank you to everyone who helps make this camp possible. My kids look forward to going every year.

It brings me so much joy to see how excited my kids get when it is Camp season. Knowing that they are in a safe, fun and loving environment that helps nurture their relationship with Christ brings so much peace to our family. My kids come back with a renewed mind and spirit, and carry on that spirit within their daily lives. They are so much more aware of their spiritual lives, praying and singing worship songs throughout the day, and most importantly, not being afraid to share their faith with their friends. Our family is a Camp AREV family, and we can thank camp and our church community for continuously helping us grow in our faith, both on a personal level and as a family.
